Chantal Wallace

Houston, TX | 832.243.8978 | chantal.o.wallace@gmail.com | [LinkedIn]() | [Twitter]()

Software developer with experience in React.js and Ruby on Rails. Able to grasp new concepts quickly and efficiently. Excellent interpersonal communication skills honed with 10+ years of customer service experience. Demonstrated ability to use creativity to organize and solve problems. Thrive in collaborative and creative environments.

TECHNICAL PROJECTS

Houston Helper - [Frontend Github]() | [Backend Github]() | [Demo]()
Web app created to help people in need of shelter, food, healthcare, etc., find resources in the city.
+ Built on a Ruby on Rails API backend
+ Used React frontend with custom CSS
+ Created with mixed CRUD functionality for users permissions and resources

Rando - [Github]() | [Demo]()
RoR site that randomly selects from a list of restaurants and connects the user to google maps for directions.
+ Built completely with Ruby on Rails MVC design pattern
+ Constructed with full CRUD functionality to maintain restaurants listed for the user
+ Currently rebuilding with a React.js frontend and Rails API Backend with additional features

SCA Section Finder - Private Github Repo | [Demo]()
App to help Sharpstown homeowners identify their section to get the proper deed restriction documents.
+ Built a responsive frontend with React.js
+ Used Bootstrap to create a responsive UI
+ Rails API backend and PostgreSQL used to store addresses and sections
